

“ The solutions may be site specific, but the benefits have been felt across the company. What Prosegur has implemented have enabled Drakes to eliminate cash counting errors across all stores, deliver a measurable labour saving of nearly 80% across our cash management tasks and importantly, re-allocate staff time away from administrative tasks to effective in-store customer time.

They are a service business just like us. They have delivered what we needed and continue to do so.

Phil Shayler
Operations Manager
Drake Supermarkets

“ Prosegur provides the club with same day banking thus improving cash flows, an essential component to the Clubs growth.

Daniel Brian
Operational Manager
Central Coast Leagues Club

“ The club's money is now working for us in real time, reducing the amount of cash held on premises and lowering insurance premiums.

Stuart Jamieson
CEO
Club Rivers

COMPLETE CASH MANAGEMENT FROM BUSINESS TO BANK

Prosegur Smart Cash is just one part of the Prosegur difference. From collection to counting, we've got your business cash management covered.

PROSEGUR SMART CASH SOLUTIONS

INTELLIGENT DEPOSIT AND RECYCLER MACHINES TO INCREASE YOUR CASH FLOW AND KEEP YOUR BUSINESS SAFE

HOW PROSEGUR SMART CASH WORKS

Staff deposit daily cash takings into the Cash2Bank machine for it to be counted and stored securely whilst being fully insured. No liability to you.

Cash is electronically transferred to your bank account, improving cash flow and removing the need for staff to walk to a bank.

A real-time reporting platform to track your cash anytime, anywhere and from multiple devices.

Based on cash volumes, Prosegur will clear the machine in line with its capacity.

For a free cash management consultation call 1300 661 773 or visit www.prosegur.com.au

OUR CASH2BANK MACHINES MEAN REDUCED WAGE COSTS FOR CASH HANDLING AND MORE STAFF PROTECTION SUPPORT FOR ALL SORTS OF BUSINESSES

LOWER WAGE COSTS AND INCREASE EARNINGS

Times have changed and business is tougher. Staff costs can increase, security costs can increase, and so when your business earns more takings, why lose them to paying staff just so you can account for them?

Whether you are a retailer, club or financial institution, all our Cash2Bank machines take the time and cost out of cash-counting and assist with the following:

- Till preparation and issuing
- Revenue deposits
- Change requests
- Reporting and reconciliation
- Skimming
- Cash preparation for pickup.

INCREASE CASH FLOW WITH SAME DAY BANKING

With accurate and accountable counting of takings and till preparation, you can be sure that your numbers will always add up. Furthermore, we provide same day banking so when your cash enters a Cash2Bank machine, the funds are electronically transferred to your bank account to increase your cash flow!

Once programmed to your specific business needs, each machine will accept and count your takings and provide you with a detailed receipt and report which are accessible through various devices (computer, mobile phone or tablet).

And with our detailed reports, you can spend less dedicated to financial admin and banking tasks and no time worrying about errors.

PROTECT YOUR BUSINESS AND YOUR STAFF

Once your Cash2Bank machine has counted your takings, it securely holds them for you - immediately reducing staff OHS and security issues from cash handling and transfers further improving the security of your business. And because every machine is fully insured and undergoes comprehensive audits, you don't have to worry about theft or loss.

For further peace of mind and to eliminate the need for staff to take collected cash to the bank, we electronically transfer takings to your nominated bank. This allows you to reassess your liability on insurance and may potentially result in a lower insurance premium.

REMOTE SUPPORT NOW AND IN THE FUTURE

Every Cash2Bank machine is tailored to your business, and once installed, you and your staff will receive onsite training so you can enjoy the efficiencies and security you got it for.

What's more, we'll always be there for you with access to our 100% Australian call centre. So if you ever need support along the way, we're just a phone call away.

A CASH2BANK MACHINE FOR EVERY BUSINESS
